

Axial Bathroom Fans

Slimline axial extractor

FUTURE-100

Slimline axial extractor designed for removal of odours and moisture from toilets, bathrooms, small offices and any small room requiring ventilation.

The FUTURE-100 provides an effective ventilation solution for wall and ceiling, non-ducted and ducted, and single or multipoint ventilation system.

- Fans manufactured from injection moulded plastic and fitted with neon light indicator
- Class II electrical insulation (□)
- IPX4
- Supply: 230V-50Hz

The fan is available with different integrated control options to accommodate all application requirements

Technical characteristics

Model type	Speed (rpm)	Maximum power absorbed (W)	Voltage (V) 50Hz	Maximum air flow (m ³ /h)	Sound pressure level (dB(A))	Insulation IP	Weight (kg)
FUTURE-100	2500	13	230	95	40	□ - IPX4	0,44

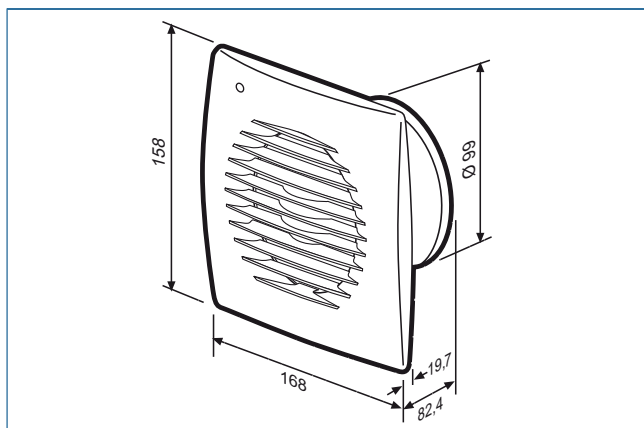

Models

Model Type	C	CT	CHT	CPIR
Neon light indicator	•	•	•	•
Adjustable Run-On-Timer		•	•	•
Adjustable humidistat			•	
PIR detector				•
